My Dear Brother Phelps,

Yours of the 26th was duly received - I know well how to sympathize with you in your unexpected & distressing bereavement - It binds you to Heaven by a new tie - May the rich consolations of that Gospel we preach to others be fully yours.

You speak of leaving the house & of Mr Mason's giving up the lease -

I have supposed from the value of that place & the rise of property in Boston that the lease was a cheap one -

But as I wrote Mr Mason on the subject my occupation is so constant & my distance so great that I could not for a moment think of relinquishing the lease

If you let in another family I should decidedly object to a large family of careless children -

You speak of cutting a door from the study to the bedroom - To this I have no objection, if made as you propose at your own expense -
